February 11, 2019

Apergy also ranked #1 in five other categories:

- Artificial Lift
- Horizontal & Directional Wells
- Performance & Reliability
- Onshore Applications
- Engineering & Design

THE WOODLANDS, Texas, Feb. 11, 2019 (GLOBE NEWSWIRE) -- Apergy Corporation ("Apergy") (NYSE: APY) has earned the top overall ranking for total customer satisfaction and was ranked first in five additional categories in the 2018-19 Oilfield Products & Services Customer Satisfaction Survey conducted by [EnergyPoint Research](#). This independent annual survey is the industry benchmark for measuring customer satisfaction across the global oilfield and is comprised of thousands of in-depth evaluations.

Apergy rated first in Total Satisfaction, Artificial Lift, Engineering & Design, Performance & Reliability, Horizontal & Directional Wells, and Onshore Applications in the Oilfield Products segment of the EnergyPoint survey ended December 31, 2018.

Sivasankaran "Soma" Somasundaram, President and Chief Executive Officer, stated, "We are honored to be recognized for our commitment to continuously advocate for our customers. Our strategy and the work we do are highly focused around providing products and technology that drive our customers' success. This customer centric strategy allows for decision making that is closer to the customer and guides our operating philosophy. Achieving this success across six unique categories, including total satisfaction, reflects our team members' efforts to exceed customer expectations every day. Our team's dedication to quality, service and customer driven innovation are clearly the differentiators that set Apergy apart."

Doug Sheridan, Managing Director of EnergyPoint, noted, "The survey's highly ranked oilfield suppliers have increased their customer focus and performance in response to challenging times. This year's ratings leaders all embrace quality, execution, reliability and customer service as central organizational tenets. If history is any gauge, they are the vanguard that will drive the industry's future success."
